EDUCATION

University of Toronto - St. George Campus

Expected Graduation: 2030

Computer Science, Incoming First-Year

Toronto, ON

Planned Coursework: Foundations of Computer Science; Calculus with Proofs; Linear Algebra; Statistical Reasoning and Data Science

PROJECTS

Go Game

Independent Course Project

JavaScript, HTML, CSS

- Built a playable browser-based 19×19 Go game from scratch with two-player alternating gameplay, score tracking, undo, and restart functionality.
- Implemented breadth-first traversal over the board grid to identify connected stone groups and evaluate liberties, enabling capture detection and group-based game-state updates.
- Reused group/liberty logic to reject invalid suicide moves and designed the complete frontend independently; the finished application is publicly accessible online.

Sci-Fi Scientific Calculator

Independent Personal Project

JavaScript, HTML, CSS

- Built a browser-based scientific calculator supporting arithmetic, trigonometric and inverse trigonometric functions, logarithms, exponentials, roots, powers, and secondary functions.
- Implemented keyboard input and event-driven interactions using JavaScript ES6 and event delegation; designed a responsive interface with CSS Grid.

AWARDS & COMPETITIONS

Euclid Mathematics Contest — Honor Roll; 83/100

2026

Canadian Senior Mathematics Contest (CSMC) — Distinction; 43/60

2026

Canadian Computing Competition (CCC) Junior — 71/75; honor-roll-level performance

2025

Mathematics Subject Awards — Received the school's top-student mathematics award in every mathematics course/semester from Grades 8-12.

Academic Standing — Graduated with a 97%+ overall average; ranked 2nd in graduating class.

ADDITIONAL EXPERIENCE / ACTIVITIES

Varsity Football - Nose Tackle

High School Varsity Football

- Five-year varsity player and two-year starting nose tackle; team finished as Saskatchewan provincial runner-up in final season as a starter.

SKILLS

Programming Python (basic syntax and data structures), JavaScript, HTML, CSS, C++ (basic syntax)

Tools Git, GitHub

Languages Mandarin (Native), English (Fluent)
